

## Composite doors

**FG series composite door**  
Vinyl jamb and brick mould  
Smooth skin fiberglass slab.

A long lasting door that does not have to be painted but is paintable. This door is an excellent choice for residential, agricultural, and storage applications. All surfaces and edges are composite, will not rot, dent or rust.

Pre-hung for easy installation and prepped for lockset with a 2<sup>3/4</sup>" backset.

Frames are fully composite - vinyl, will not rot, with vinyl brick mold.

36" actual unit size: 37-5/8" x 82"  
34" actual unit size: 35-5/8" x 82"  
32" actual unit size: 33-5/8" x 82"
